THE BRITISH COLONIST.  
Thursday Morning, Oct. 3, 1887.  
**Reduction in Rates of Advertising.**  
On and after this date a Reduction of FIVE PER CENT. on the rates heretofore charged for Advertisements in the DAILY and WEEKLY COLONIST will be made on all bills paid in advance at the Office desk.

**Job Printing**  
Will be CASH ON DELIVERY of the Work.  
Victoria, Sept. 7th, 1887.

**TO ADVERTISERS.**  
Transient Advertisements must be paid for in advance on issue of insertion.  
**TO AGENTS.**  
Settlements of accounts will be required monthly, or the supply of papers will be discontinued. The daily and weekly issues will be furnished at the lowest cash rates, and no exception will in future be made to the rule.

**The Colony ought to be Represented at Ottawa.**

The Canadian Parliament will meet at Ottawa next month for despatch of business. Among the first matters of interest that will come before that body are the admission of this Colony to the family-circle of the Confederacy, and the purchase (with an Imperial guarantee) of the Red River country from the Hudson Bay Company. Governor Seymour communicated to Lord Monck (the Governor General of the Dominion) the vote of the Legislative Council in favor of Confederation. Whether any answer was received or not we are unaware; but as his Excellency, in proroguing the Council, promised the members that as soon as an answer should come to hand he would call them together and lay it before them, we presume no answer has yet reached his Excellency. We gather, however, from the tone of Hon. Mr. Tilley's letter, that the Canadian Government is warmly in favor of our admission, and that the question will come, as a Government measure, before Parliament immediately after it shall have assembled. The introduction of the measure into Parliament will not insure its passage; and we entertain a fear that, except the wishes and views of the colonists are represented by some person competent to point out the resources and capabilities of the Colony, as well as to arrange the terms (subject to popular ratification here) upon which we are to be admitted, the matter may hang fire this session and the Colony be left out in the cold for at least two weary years to come. So deplorable a result may easily be averted, and little difficulty need be experienced in overcoming any prejudice against us that may exist in the minds of some of the honorable members, if a proper person—one having a pecuniary interest in the Colony and possessing the confidence of British Columbians—were selected to act as unpaid representative at the capital of the Confederacy. The representative, however, should not be authorized to close the bargain. His duty should be confined to stating the terms under which he believes we are prepared to enter the Confederacy, and in explaining the position of affairs here. A proposition could then be made by the Canadian Parliament, and it would remain for our people to accept or reject it. We should be bound to no particular course or line of policy—we merely express a desire to join the Confederacy, and ask the price we are expected to pay for the privilege.

**Depression of Business in New York—Costly Building and High Rents.**

[New York Correspondence Rochester Democrat.]  
One of the striking features of the pressure which New York is suffering is the abundance of unemployed capital which burdens Wall street. Here untold millions are in board, and here are vaults in which greenbacks and bonds are piled up in heaps that exceed the dreams of avarice. It is, however, the very absence of circulation that indicates commercial distress. The money should be in motion, giving life to the business world. The pressure is a violent one, and we note but little excitement. Business is dull, dull, dull, and people are tired of talking about it. The main question with employer and employed is how to meet the expense of life. To live from day to day is just as much as can be hoped for at best. All along the great business streets the carriages stand as quietly as though they never had moved. The drivers have a sad look of care, and their hands are getting quite soft for want of work. At the doors a few clerks are chatting over the news of the day, while inside the principal may be seen in anxious converse, studying the question how to keep afloat. The fashionable stores in the upper part of Broadway show signs of distress in those leeks which appear at the windows to tempt the passer by, and which are seldom displayed here. Irrespressible sale of mustine at less than cost. From auction, 200 pieces of dress goods at 40c, cost 55c to import. Fine French silks at \$2, cost \$3, etc. On top of this general distress comes quarter day, draining the last dollar from many a slender purse and bringing a spasm to many a heavy sigh. The clerks draw a larger sum than usual, for they must meet the land lord, while the employer solemnly pens his check for \$5000 to meet the same exigency, conscious that the money is thrown away during the quarter for which he pays in an enormous sum he has lost a million fortune, and has no prospect of doing better. We fear him that the profits of the war are not yet exhausted. The amount of money which changed hands on quarter day cannot have been less than twenty-five millions of dollars.

SPECIAL TO THE DAILY BRITISH COLONIST  
**LAST NIGHT'S DESPATCHES**  
**Mexico.**  
NEW YORK, Sept. 30.—The Liberals of France publish a confidential circular issued by Bazaine while in Mexico, ordering that no prisoners shall be taken, and that every person taken with arms be put to death; no exchange of prisoners to be made in future. This is war to the death. A struggle between barbarism and civilization on both sides had become necessary.

**Eastern States.**  
CHICAGO, Sept. 30.—Fearful accounts of ravages of pestilence in Texas and New Orleans continue to reach members of Howard Association. It is stated that last week there were fifteen thousand cases there and in New Orleans.

Cholera has been prevailing in St. Louis to an alarming extent, but local papers do not mention the fact. Private letters say there have been over 100 deaths in a day from the disease.  
NEW YORK, Sept. 30.—Sheridan's reception to-night was a grand affair. The military procession comprised five divisions, including one division of colored soldiers. An immense concourse of citizens also surrounded the league; enthusiasm immense. Sheridan's speech merely expressed thanks for the honor.

NEW ORLEANS, Sept. 30.—The result of the election is still doubtful, but returns from country parishes are more encouraging for the success of the Convention.  
The Nashville city authorities have petitioned Chancellor Harrison for injunction to restrain newly elected city officers from assuming office; they will have an early hearing.  
The commissioners of registration have notified Recorder Foster that if he did not administer oath to the new mayor the commissioners would be relieved. If the commissioners do not vacate tomorrow, Gen. Cooper will eject them by military force.

BOSTON, Oct. 1.—The Democratic State Convention has nominated John Quincy Adams for Governor. The nomination was received with much enthusiasm. G. M. Storms was nominated for Lieut. Governor. The resolutions affirm the doctrines of States Rights, and demand economy in the administration.  
The steamer Tioga, from New Orleans for Philadelphia, was burned at sea on the 20th of September. The passengers were saved, but three of the crew were burned to death.

WASHINGTON, Oct. 1.—The secretary of the treasury to-day issued notice that the assistant treasurer at New York has been instructed to issue three per cent certificates as authorized by the act of Congress in denominations of \$50 and \$100 each.  
The compound interest notes maturing in October and December, with accrued interest, will be paid in currency.  
The statement of the public debt to be issued to-morrow will show no recent reduction of the total debt, the principal change being the increase of gold in the Treasury.

**Central and South America.**  
NEW YORK, Oct. 1.—The attempt at revolution at Guatemala was suppressed. The coffee crop is reported to be very large.  
Important discoveries of gold have been made in the northern part of Chile.  
The Ecuadorian Congress has held a long debate resulting in the expulsion of the former President from the Senate. He has left the country for ever. The attempt to expel Antonio Flores from the House failed.

**California.**

SAN FRANCISCO, October 1.—The transactions of the Bank of California amounted to over sixty two millions (\$62,000,000) dollars the past year. Trustees for the ensuing year were elected to-day.

**Dominion of Canada.**

QUEBEC.  
MONTREAL, August 19.—A great fire occurred on Saturday at midnight in Middleton's coal oil stores, near the station at Point St. Charles. 12,000 barrels of oil, each containing 40 gallons, were consumed. The heat caused these to burst, blowing off the roof, and the oil spreading around and into St. Pierre creek, which passes into and through the city underground, the fire spread with great rapidity over the surface of the water. The creek was dammed and the flames thus checked, after continuing with great violence for seven hours. The loss is estimated at \$100,000.

EARLY ARRIVAL OF AN IRON-CLAD WAR SHIP.—Admiral Rodney is to leave Halifax on the 28th inst., for Quebec, on board of his flag-ship the Royal Alfred, an iron-clad steamer of four guns. The vessel draws 26 feet of water; and Capt. Dumesnil, late of the Gaspe, a most skillful navigator of the St. Lawrence, has been selected to pilot her to Quebec.—*Chronicle*, 24th August.  
QUEBEC, Aug. 20.—Five men took out over \$300 worth of gold in a day and a half at the Gilbert river.

The number of passengers ascending and descending the St. Lawrence above Montreal was 8,577 in the month of July last, against 4,817 in the same month of 1886.

**ONTARIO.**  
Mr. James K. McKenzie, who kept a general grocery store, in the City Hall buildings, committed suicide between 12 and 1 o'clock yesterday afternoon by cutting his throat with a penknife. Cause, business reverses.  
A man named Stewart, a nephew of Sir Francis Hincks, and who was much addicted to the use of liquor, was found dead on a vacant lot on Colborn street, Toronto, on the 5th inst.

Locomotive traction engines, which have been found to work so well in England, and have been so generally adopted there in localities where railway communication is wanting, are likely soon to come into general use in Canada.

**NEW BRUNSWICK.**  
Telegrams from St. John's state that Kelly and Gough, Confederates, were elected by show of hands. Mitchell strongly deprecated the efforts of the Anti-Press, to create disunion between Tilley and himself; he acknowledges Tilley's influence and ability. Gillespie the Anti had so few supporters that he did not demand a poll.  
The potato rot, in a mild form, has appeared in Charlotte and King's Counties, and in several other Districts throughout the Province.  
It is said that one thousand large photographs of the New Brunswick oarsmen, have been ordered by a Canadian.

**Prince Edward's Island.**  
THE CROPS AND FISHERIES.—The *Summerside Journal* gives a glowing account of the crops, especially wheat and potatoes, and says that, as yet, there is no appearance of weevil or blight. Codfish are very plenty, and have been taken in large numbers.  
EXPORTS, &c.—For the two weeks ending August 2nd, there were exported from Charlottetown, P. E. I., 18,769 bushels of oats, 275 bushels of potatoes, 7,910 dozen eggs, and various other quantities of agricultural produce; also, \$66,100 feet of deals, and 14,169 bushels of oats went to Britain. Nineteen horses were sent to New Brunswick, and 36 head of cattle to Newfoundland. The exports to Canada for the same period were nil.

**Facetiae.**  
The man who sang I'm Lonely since my Mother died, isn't quite so lonely now. The old man married again, and his step-mother makes it lively enough for him.  
"The only Liberty Cap," says a clever and witty author, "is a night cap." "In it men visit one third of their lives, the land of sleep—the only land where they are always free and equal."  
Lord Dundreary has expressed himself favorably to marriage with a deceased wife's sister, on this ground; "It is economical, because when a fellow marries his deceased wife's sister he has only one mother-in-law."  
A lady complained of the insolence of some coal-heavers. "To tell you the truth, madam," answered the employer, apologetically, "we have failed in our efforts to get gentlemen to undertake the business."  
John Bull states that Lady Dudley's house was left in a fearfully dirty state by her Eastern visitors; but it is said that the Viceroys gave her ladyship a necklace of diamonds worth £20,000, to add to her already not small stock of jewels.  
The Rev. Rowland Hill once said, on observing some persons enter his chapel to avoid the rain that was falling, "Many persons are to be blamed for making their religion a cloak; but I do not think those much better who make it an umbrella."  
ASK PAPA.—When Prof. Aytoun courted the daughter of Wilson, of the *Noctes Ambrosianae*, the young lady, after accepting him said it would be necessary to ask her father's consent. Her lover said he was too timid to do this and the daughter went herself to ask her father's permission to marry. Wilson was in his study, when his daughter entered, and said, "Papa, Prof. Aytoun has asked me to be his wife. He is too modest to come and ask you; do you give your permission?" "I will send my answer," said Wilson; and he wrote something on a slip of paper, which he pinned to his daughter's back. The young lady returned to her lover, who had the satisfaction of reading the following words, "With the author's compliments."

Here is what a gentle Memphis editor says of the mild mannered Brownlow:—"His lips are redolent with guile, a deadly, putrescent odor exhales from his tongue, which is set on fire of hell. Low, sensual and devilish, he is a walking photograph of the devil. His infamous bosom is the abiding place of such restless, fiery and corroding passions that if his bones were not iron and his flesh brass, they would ignite and burn by spontaneous combustion. He is more of a cynic than Diogenes, more of a tyrant than Caligula, more of a fiend than Nero, more of a beast than Butler. With volcanic fires ever burning with quenchless fury in his polluted bones he is a moving type of hell. Compared to him, Lucifer is a saint and Apollyon is a paragon of mercy. Devils could learn lessons of profanity from him." Comprehensive, certainly.

One day, at the table of Cardinal Richelieu, Balthus, seeking to amuse him, inquired of one of the strangers present: "Monsieur, excuse me, but how did you value asses in your country when you set forth?"  
"Those of your weight and size were priced at ten crowns."  
"Has that Cookery Book any pictures?" said Miss Caroline Smith to a bookseller.  
"No, miss, none," was the answer.  
"Well," exclaimed the young lady, "what is the use of telling us how to make a good dinner if they give us no plates?"

**A LOSER.**—The passion of the French for theatrical amusements, and the patience with which they will wait at the doors of theatres for the sake of obtaining a good place for witnessing the performance, are well known. At a crowded French theatre a woman fell from the gallery into the pit, and was picked up by one of the spectators, who hearing her groaning, asked her if she was much injured. "Much injured?" exclaimed the woman, "I should think I am. I have lost the best seat in the very middle of the front row."

**MOSSES.**—In a Western Sabbath-school, a boy was asked to give an account of Moses. "Moses," said he, "was born on the banks of the Nile in a basket. As the infant lay in the basket, concealed in the bushes, a huge crocodile came swimming along and approaching him said;—'Moses, almost thou persuadest me to be a Christian.' Whereupon the infant stretched out his little arm toward the crocodile and said:—'Verily, thou art the man!'"

A coroner, after empaneling a jury, said: "Now, gentlemen, you are to determine whether the deceased came to his death by accident, by incidence, or by the hand of an incendiary." The verdict was: "That the deceased came to his death by accident, in the shape of a clasp knife."

**DOUBLE.**—"Mr. James, how do you keep your books?" "Oh, by double entry." "Double entry, how's that?" "Easy enough; I make an entry, and father makes another."

**A PROPER CHARGE.**—One charge in a lawyers' bill against a client was: "for waking up and thinking of your business, five dollars."

A farmer having lost some ducks, was asked by the counsel for the prisoner accused of stealing them, to describe their peculiarity. After he had done so, the counsel remarked: "They can't be such a rare breed, as I have some like them in my yard."

"That's very likely," said the farmer; "these are not the only ducks of the same sort I've had stolen lately."

**Blissful Ignorance.**—According to the late Sir Astley Cooper, we must not know, from any physical sensation that he has a stomach. Let those who are daily reminded of the existence of the organ, by pain, and all the concomitants of dyspepsia—when stomachic troubles slowly, imperfectly, and with sensations which pen cannot describe, whose whole system do prance under the influence of the rebellious number-try, merely try, *Bristol's Saggy Coated Pills*. As surely as they do so, their living martyrdom will be speedily exchanged for ease. They will forget that they have stomachs, save when the appetite, created by this genial stomachic, reminds them that the religiously observed organ requires a supply of sustenance. There will be no more oppression after eating, pain in the right side, nightmare, constipation. The cures effected by this pure and incomparable vegetable alternative are complete and radical. They are put up in glass vials and will keep in any climate. In all cases arising from or aggravated by impure blood, *Bristol's Saggy Coated Pills* should be used in connection with the Pills.

**A Card for the Dressing Room.**—Ladies, your attention is invited to the special advantages of *Murray & Lumsden's Florida Water* over every other. It is a pure, refreshing, and invigorating tonic, not from unwholesome chemical combinations intended to counteract their odors. Besides being the most delicate and delightful of floral waters, it has important sanitary remedial qualities. It is a tonic to the nerves, prevents fainting fits, promotes a sleep, and soothes the nerves. Induced into the bath it renders it more invigorating and refreshing. Combined with water it imparts whiteness to the teeth, preserves the enamel, and renders the gums hard and rosy. No other toilet-water retains its fragrance so long after contact with the atmosphere.

**Diseases of the Kidneys.**—It is said that two-thirds of the civilized inhabitants of the world are afflicted more or less with disorders of the kidney and the liver. Unquestionably kidney diseases have of late years become more frequent and unmanageable, especially in hot climates. Nothing seems to produce such a marked effect upon them as *Bristol's Saggy Coated Pills*. When the uric and lithic acids are in excess in the urinary secretion—and this is the case of most of the classes of diseases in question—the alkaline properties of the *Saggy Coated Pills* quickly stop the progress of the trouble, while its tonic operation strengthens the relaxed organs and restores their natural action. *Bristol's Saggy Coated Pills* should be used at the same time with the *Saggy Coated Pills*, so that the bowels may assist the kidneys in carrying off the vitiated matter set free in the system by the latter medicine.

**HOLLOWAY'S PILLS.**—The Perfection of Medicine—Nothing can surpass this restorative of the invalid; let the malady be what it may, or be seated where it will, these pills will cure it. They will rid the system of its removal and steadily accomplish their purpose. They cleanse the blood, and by that means not only prevent the deposit of unwholesome materials, but stimulate the absorbents to remove all corrupt or worn-out substances. Thus have Holloway's Pills won their way to public estimation, which is obtainable and retainable alone by what is universally good. The significance of these remarks will be appreciated by thousands who took these Pills as a last resource, and derived from them renovated health, after hope was almost abandoned. 29

**THE THEATRE.**—The theatre was thrown open to a large and brilliant audience last evening, who seemed delighted to behold the wonderful metamorphosis of its interior had undergone during the brief period the building had been closed. The ceiling is beautifully frescoed; the new proscenium has disappeared and is replaced by a lighter and more stylish looking affair. The boxes on the lower tier have been built so that their fronts overhang the parquet; two new boxes have been added above those on the second tier, and quite a metropolitan air is given by the addition of bright hued damask curtains and upholstery. The front of the dress circle is ornamented with turned columns and crimson cloth and the seats are all re-upholstered and lettered instead of being numbered as formerly. Gas burners representing the Prince of Wales feather supplant the old single jets. A most striking improvement has been wrought at the entrance to the building, the old box office, which formerly blocked up one-half of the passage way has been removed, and ingress and egress to the theatre is obtained through a spacious, well-lighted hall. Tickets are sold through a hole-in-the-wall on the left side of the passage way. On one side of the entrance is a fruit store and on the other a bar-room. The interior arrangements are handsome, and reflect great credit upon the lessee, Mr Marsh, and his talented corps of assistants. The performance last evening was under the patronage of Admiral Hastings, Capt Dawkins and officers of H M Fleet. The principal characters were sustained by the Zealous and Alert Dramatic Clubs, assisted by Miss J. any Arnot, Mrs Marsh and Mr J H O'Neil. A prologue, read by Miss Arnot, was greatly applauded. The farces—"To Paris and Back for £5," and "Illustrious Stranger"—were well got up, but the amateurs lacked energy and many of the best hits were lost. Mr George Edwards, a most versatile genius, sang several comic songs, all of which were applauded and encored. "Nursery Rhymes," a duet, by Miss Arnot and Mr Edwards, was one of the best things of the evening. "Paddy's Wedding," by Mr O'Neil, was done excellently well and was redemanded. The Zealous Band performed several fine overtures with considerable spirit and effect. We must particularly compliment the band upon the effective manner in which they played "Il Trovatore" and "Luceria Borgia." The performance closed at 11 30 o'clock, with the National Anthem.

**THE MUNICIPAL ELECTION.**—The election for Mayor and Councilors of this city will be held on the 9th proximo. The votes of all ratepayers—whether foreigner or subject—will be accepted, a circumstance that will increase the interest of the contest. We believe it has been decided by the Corporation that all persons whose rates are not paid on or before the 30th instant will be debarred from voting, so that the defaulters had better not delay any longer than that day in stepping up to the clerk's office and settling. The number of votes cast under the new list is believed, will reach nearly 700. For the position of Mayor three probable candidates are mentioned, viz: Hon W J Macdonald, present incumbent, Lumley Franklin and George Parkes, Esqs; but we are not aware that either gentleman has signified his intention of coming forward.

Mr. Birch was at Quebec on August 31. He had an interview with Lord Monck, and we are not surprised to learn from our New Westminster contemporaries that the Governor General, after the interview had closed saw great practicable difficulties in the way of carrying out the scheme of including this Colony in the Confederacy just now. Of course Mr Birch's "mission" to Quebec is to misrepresent the condition of affairs here so as to prevent the scheme being consummated 'just now' and retain himself and 'his friends' for a few more years in their snug berths. He is leading Lord Monck astray. His true character should be exposed to the Canadian Government.

**POLICE COURT.**—Cook vs McIntosh—Summons for \$25 for wages. Defendant applied for time to appear by his attorney, Mr Bishop, who intimated at the same time that inasmuch as it was a contract for work for a specified sum, the magistrate had no jurisdiction. The magistrate held that he had no jurisdiction, and said he had granted the summons at the instance of the plaintiff, at the same time informing him that should the objection be raised it would be fatal. It is proper the public should understand that the relation of master and servant must strictly exist before proceedings can be instituted in the Police Court; and that in all contract cases suit must be brought in the Summary Court.

**HORSE RACE.**—For the 9th proximo an interesting horse race has been arranged for a purse of \$1000, between the well-known race horses 'Voltaire' and 'Boston Colt,' a horse belonging to Parker of Meachosin, and another to Spurlock of Puget Sound. Each will carry 140 pounds. To prevent the practice of the trick of holding in either of the horses by the jockeys in the first heat, the distance pole will be placed 60 feet from the judge's stand instead of an eighth of a mile, as heretofore. The meeting promises to be one of the best ever arranged here.

**CHERRIES!**—Think of cherries of Island growth exposed for sale on the 3d day of October in the city of Victoria, and then prate about our "rigorous climate!"

**A MEMBER OF PARLIAMENT HAS AN ADVENTURE WITH INDIANS.**—The Chicago Tribune of August 7th says: Thomas Cave, M. P. for Barnstable, returned to this city on Monday afternoon from a jaunt to the Union Pacific Railroad, many miles west of Omaha. At Julesburg, a wild spot, almost without civilization, Mr Cave accepted of an invitation to participate in an antelope hunt, tendered him by Col. Carlin, Commandant of the post. The hunt came very near proving disastrous to the party, but fortunately having a number of Henry rifles in their possession, the Indians who surrounded them were scared off. The hunting party was composed of Mr Cave, Col. Carlin, an orderly and two scouts. They had ventured but a short distance out on the prairies when the Member of Parliament espied some wolves at a distance, and enthusiastically followed them—being mounted on a splendid horse and well armed he feared nothing. When near them, he discovered upon a knoll, not far off, a band of red-skins, who seemed determined to fight. He turned his horse, and upon his return to the other members of the little band, the two scouts came in with the information that the Indians were increasing in numbers. A council of war was accordingly held, and it was decided that all should fight to the death. The hostile movements rather surprised the Indians at a distance, and they discreetly moved off, leaving their enemy out of danger, and willing candidates for more congenial quarters.

**FROM NANAIMO.**—By the arrival of the steamer Emily Harris, yesterday morning, we learn that the steamship John L. Stephens, from San Francisco for Sitka, went aground in Nanaimo harbor on the morning of Tuesday. The water was at a low stage when she grounded, and it was hoped that she would float off at high tide....By the same arrival we learn that the American ship Helios, while loading with coal, sprang a leak, and had to be beached. The coal (some 300 tons) will have to be discharged before the ship can be repaired.

**COOL.**—The following cool notice appears in a late issue of the Montana Post: The lady is guilty of a bull. If she don't want her name used in connection with her husband any longer, why does she use his surname at the foot of the notice? "I have obtained a divorce from my former husband, Almon G. Goodrich, and will no longer be molested by him. I give this notification as I do not wish my name to be used in connection with his no longer."

**ANTHRACITE COAL.**—An arrival from Queen Charlotte Island announces the discovery of a six-foot seam of splendid anthracite in Hooper's River, which empties into Skidegate Bay. The seam was followed and uncovered for the distance of fifteen feet, and found to increase in thickness and improve in quality. This discovery is regarded as important. No fresh developments have been made in the tunnel of the company.

**MEAN SCAMPS.**—On Tuesday night some scamps entered the farm of Mr Thomas Craigie, at Plerson Bridge, and abstracted the half of his oats, which had been put up in sacks the night before, ready to be taken to market. The tracks indicate that there were two at the work. At this season it would be well if farmers kept a lookout for such depredators.

**ALL CORNERS MATCH.**—The rifle match for all corners will commence this morning at the rifle range of the Volunteers at 12 o'clock sharp. A sweepstakes will be contested for at each of the four ranges, two, three four and five hundred yards, and the highest (total) score will win the purse. A good deal of interest is manifested in the affair.

**BUSH TAVERN ASSEMBLY ROOMS.**—Mr C B Brown had added to his well known Bush Tavern a large assembly room for balls, parties, etc., which will be thrown open on Saturday evening. We also notice that Mr Brown has led water from a distant spring to his door for the accommodation of the public. Brown deserves success.

**FOR PORTLAND.**—The steamer Fideliter, Erskine, sailed at 9 o'clock yesterday morning for Portland. She carried a few passengers and a fair freight. Upon her return it is expected she will bring a full cargo of Oregon flour, of which the market is somewhat bare.

**THE LEVIATHAN** returned from the Sandheads last evening. A report was in circulation that the channel has shifted greatly since the last survey was made. One of our New Westminster contemporaries thinks that even the Isabel would ground on the heads.

**SHOOTING MATCH.**—We learn that a shooting match has been arranged between Mr Gerow, of this city, and an old hunter, for \$200 a-side, to come off on the 1st of November. Distance 150 yards, each contestant to be allowed fifteen shots.

The assignees' sale of Wilson & Murray's stock came off yesterday. Mr Backus, in Mr McCrea's absence, officiated as auctioneer. A large crowd was in attendance and the bidding was spirited. The sale proved highly successful.

**SUICIDE.**—Wm Nickles, a native of Massachusetts, confined in jail for insanity, hung himself to the bars of his cell on Saturday last at New Westminster.

Rice silver ore from Harrison Lake has reached New Westminster.

**A GOOD MOVE.**—J BRUNN & CO. have moved to their New Store, Corner of Yates and Langley streets, between Wells, Fargo's Express and the Bank of British North America. Their New Corner Store is stocked with new and well selected Custom-made Clothing, Hats, Caps and Gentlemen's Furnishing Goods. Their stock and our prices will benefit all. Greenbacks taken at San Francisco current rates at their new Store, near Wells, Fargo & Co's Express. 1m\*

**THE WONDERS OF THE MICROSCOPE.**—We understand it in through the agency of this marvelous viewing instrument that Dr. Ayer has at length succeeded in finding the PALUDAL Miasm and determining its character. Of its effects we in this section have abundant evidence in the FEVER AND AGUE which it alone produces when absorbed through the lungs into the blood. It has long been held to be a vapor or something in the vapor of water from decayed and decaying vegetation. Under a great magnifying power, the Doctor has found this vapor to contain distinct organisms or living bodies, corresponding precisely with those found in the blood of Ague subject. They are 13,000 times less than visible to the naked eye, but have distinct character and form.—He thinks they are reproductive in decaying matter or in the blood, and hence their long continued life or the remote effects of them in the system. He maintains that they resemble in character the other fermentative poisons, or such as the virus of rabies or of a dead body, &c., all of which are known to reproduce themselves with great rapidity, like yeast in moistened flour, so that the slightest quantity impregnates the whole mass. Yeast through a powerful magnifier is seen to be a forest of vegetation which grows, blossoms, and goes to seed in a short time. Miasm is not so distinctly vegetable, but has more the appearance of animal life, although its motions cannot be perfectly distinguished. What the Doctor claims to have settled is that it is an organic substance and he has further found and embodied in his "Ague Cure" what will destroy it.—[Leader, St Louis, Mo. \*

**DENTISTRY.**—Dr G. W. Cool has arrived in town and will be found at the St. George Hotel, rooms Nos. 22 and 23. Those who desire his services will please call immediately, as his stay in town will not be protracted. \*
